

CAASTRO

ARC CENTRE OF EXCELLENCE
FOR ALL-SKY ASTROPHYSICS

CAASTRO in the Classroom

How did the Universe begin? How has it changed over time?

You're invited to join astronomer Prof Matthew Colless as he guides students through a discussion on the answers to these big questions.

In this videoconference, Prof Colless will give an accessible account of the Big Bang and how we've come to understand the origin of the Universe. The session will include plenty of time for questions from the students.

The session will run on

12th March 2012 10:00-10:45 am

Please register your interest via email to Greg Madsen (greg.madsen@sydney.edu.au).

You can connect to the conference at

521052654@153.107.119.149 (Tandberg systems)

153.107.119.149##521052654 (Polycom systems)

Prof Matthew Colless is the Director of the Australian Astronomical Observatory. He uses observations of large numbers of galaxies to understand how the structures in the universe formed and evolved.
