

Directions to Mt Stromlo Observatory – Research School of Astronomy and Astrophysics

Travel west along Cotter Road.

Turn right at “Mt Stromlo Observatory” sign. Travel approx. 4km up Mt Stromlo Rd.

Almost at top of mountain turn left when you see sign, which includes “Administration” (tennis court will be on your left) – it is best to park at the side of CSO Building in the dirt car park.

(If you find yourself at Scope Mount Stromlo Cafe you have gone too far, turn around and come back down and then turn right at the tennis court.)

The Commonwealth Solar Observatory Building is the rich creamy-yellow-coloured single-level heritage building with 2 silver telescope domes on the roof. Enter at main entrance, centre front of building.

Please don't hesitate to contact me if you have any problems or questions.
